METHODISTS' DOINGS.

Only Routine Work Done in the General Conference.

BOOK CONCERN AGENTS ELECTED.

Four Ballots Required to Settle the Contests—Bishop Foster Makes a Touching Farewell Address—Bishop Bowman Says "Amen"—Several New Features Sprung by the Various Committees.

CLEVELAND, May 21.—Yesterday's session of the Methodist Episcopal general conference was devoted to the transaction of routine business which was sandwiched in between the ballots for the election of two agents of the book concern each for New York and Cincinnati, and two agents of the mission society.

It took four ballots to elect the agents of the New York book concern. It resulted in selecting Dr. Eaton and Dr. Manis. It took four ballots to settle the Cincinnati contest, which resulted in the selection of Dr. H. C. Jennings and Louis Curtis.

Resolutions denouncing as disgraceful the sale of intoxicating liquors in the Capitol at Washington and commanding the bill reported by the house committee prohibiting it, were adopted. The resolutions closed with a strong appeal to both the senate and house to pass the bill.

An incident of the session was an address by the retiring Bishop Foster that was full of kindly feeling for the delegates and of apologies for the action of the conference in voting him non-effective. Bishop Foster said that since his retirement he had been flooded with telegrams and letters of sympathy in which the action of the conference was characterized as an outrage and as cruel and brutal. In some of them the word "humiliation" occurred. He said he had been 59 years a minister of the Methodist church. He had never consciously done anything for which he should be humiliated nor had any brother in the ministry or laity done anything which humiliated him. He said the writers of the letters of sympathy did not understand the economy of the church, which provided that the time must come in every man's life when he must be superannuated. That was what had happened to him. He believed the hearts of the delegates were affectionately disposed to him, and that their action was for the best. He would go into retirement with the kindest and most loving remembrances, and without feelings of resentment.

As Bishop Foster concluded, Bishop Bowman arose and said: "All that I desire to say is amen."

The committee on state of the church decided to take up on Friday the proposition to form a kind of supreme court which will have final authority in all cases of the dismissal of laymen. The plan is to have a body of 12 laymen, three of whom shall act as a court of inquiry to which all appeals shall be made. The committee will ask the conference to request Bolivia, Peru, Chile and Ecuador to remove constitutional discrimination against missionaries. In these countries marriage by Protestant ministers is not recognized as legal. The committee again took up the resolution asking for the insertion of the name of the deity in the United States constitution and voted it down.

The committee on temperance decided to present to the conference a strong resolution against the use of tobacco. They will advise that the discipline be changed to include all persons who hold licenses for the sale of liquor in the section prohibiting members certain forms of amusement and kinds of business. This is intended to strike druggists. The conference will be requested to order an annual collection for temperance purposes, one-fourth to go to the standing committee on temperance and one-fourth to the annual conference and half to the quarterly conferences.

The committee on episcopacy decided on its report on episcopal residences. The places remain unchanged with two exceptions. The bishop who has heretofore gone to New Orleans may go to Fort Worth, Tex., if he sees fit. An episcopal residence was taken from Omaha and given to Portland, Or. The reason is that there is a bishop at Topeka, Kan., nearby. There was a big fight against this change in committee, and there will be a greater one in the conference. An effort was made to place the St. Louis episcopal residence in some other city, but it failed.

An attempt was made to have the committee on itineracy recommend that a bishop must make any appointment asked for by three-fourths of the presiding elders. It was accepted with the modification recommending the bishops to grant such requests. The committee discussed the proposition to allow trial preachers to perform the marriage ceremony, and will probably report favorably upon it.

BATTLE WITH TRAMPS.

Over a Hundred Shots Exchanged and Several People Wounded.

DECATUR, Ind., May 21.—A gang of 60 drunken tramps struck this city Tuesday evening. They held up several citizens and attacked women on the streets. After procuring money enough to buy several kegs of beer, they opened a camp on the banks of the river near town, where they held high carnival.

The marshal and sheriff, with 50 armed deputies, attempted to arrest them, when a hot battle ensued. The tramps were all armed with revolvers and over a hundred shots were exchanged. Dan Healy, a deputy, was fatally shot in the abdomen. Several

other citizens were severely wounded. Ten tramps were captured and lodged in jail. The rest fled, many of whom were wounded, and left blood tracks as they ran.

NO RESTRICTIONS ON RELIEF.

A Letter From Miss Clara Barton Contradicting Recent Newspaper Reports.

WASHINGTON, May 21.—Secretary Olney has received a letter from Miss Clara Barton in which she emphatically denies that any members of officials of the Turkish government have ever tried in any way to direct or control her distributions. She adds:

"Sir Philip Currie has done and is doing splendid work in facilitating the labors and distributions of the heroic missionaries, the Anglo-American operations, through consuls and missionaries, and in a general way our own efforts. But our greatest successes are due to the untiring efforts and sound judgment of our own legation of officers.

"We have three expeditions in the field, two for general relief work, the third medical. The first, under Dr. Hubbell, is working along a route marked and recognized by the cities of Aintab, Marash, Malatia and today is at Harpoot.

"The second, under Mr. Wistar, took the course indicated by the cities of Aintab, Oorfa, Diarbekir, and is today at Harpoot also. The men of both expeditions have done most of their work through the cities, as the cities through which they passed were being fought by others.

"The primal work and consideration of both parties has been and is the distribution of farming tools and seeds, so that the generous gifts of our great-hearted and open-handed people will mean a permanent rather than a temporary benefit."

THAT CUBAN RESOLUTION.

The Senate Committee Postpones It, Although Morgan Protests.

WASHINGTON, May 21.—Senator Morgan's joint Cuban resolution again engaged the attention of the senate committee on foreign relations yesterday, but action was again postponed. The committee is considering the question in the light of the recent occurrences in Cuba involving American citizens, and in order to act intelligently feel that it is necessary to have all the information obtainable on the subject, especially that bearing upon the recent construction of the treaty of 1795 and the protocol. They have, therefore, decided not to act until the state department can be communicated with. Senator Morgan entered a protest at yesterday's meeting against this course of proceeding, contending for independent action by congress, and urging that the state department could have little or no information which was not already in possession of the committee.

Committed Murder and Suicide.

LOS ANGELES, May 21.—Charles M. England, a young attorney, who resided in East Los Angeles, killed his wife last night and then committed suicide. England came here from Kansas and was indicted by a grand jury in the state a short time ago for forgery. He had cleared himself of the charge. He shot his wife through the temple as she lay asleep and then sat down and wrote several letters to relatives and friends and a will, disposing of his few possessions. He then lay down by his wife's body and shot himself.

Colonel Cockerill's Remains.

ST. LOUIS, May 21.—The remains of Colonel John A. Cockerill, the prominent newspaper man who died in Cairo, Egypt, April 10, reached here yesterday evening accompanied by a committee of St. Louis lodge of Elks, who went to New York to escort the body. The 12 member of the local lodge took charge of the remains which are now lying in state at the Church of the Messiah. At 1:30 o'clock the funeral services will be held.

To Suppress a Rebellion.

LIMA, Peru, May 21.—The cabinet has resolved to dispatch an expedition by land and sea to quell the uprising led by Seminario in the department of Loreto, near the headwaters of the Amazon, of which the town of Iquitos is the capital. The orders of the government for the conduct of the expedition will be intrusted to a delegate in a high position.

Accident in a Theater.

PARIS, May 21.—During a performance at the Helle Opera House a heavy

counterpiece of the big chandelier broke and crashed through the ceiling into a box, where it killed one lady and injured several other people. The audience was almost in a panic when the manager went upon the stage, explained the situation and reassured the people.

Wants to Succeed Congressman Phillips.

BUTLER, Pa., May 21.—The Republican congressional conferees of the Twenty-fifth district met yesterday to nominate a candidate for congress.

Hon. T. W. Phillips, the present congressman, declined to be a candidate, and J. J. Davidson of Beaver county was nominated on the first ballot, securing 34 out of 60 votes.

Too Much Whisky.

LOUISVILLE, May 21.—A meeting of the Kentucky distillers will be held in this city on June 10 to consider the advisability of suspending production for one year for the purpose of relieving the present overstocked condition of the market.

This project has been discussed for some time and most of the distillers have about reached a point where they are willing to sign an iron-clad agreement in this respect.

NO INVASION FEARED.

Coast Defenses May Soon Be Revolutionized.

DYNAMITE PNEUMATIC GUN.

An Annihilator Invented by a Toledo Man—He Is Satisfied That the Government Will Give His New Gun a Trial. An Improvement Over Lieutenant Zalinski's Recent Patent.

WASHINGTON, May 21.—D. M. Hefford of Toledo, the inventor of the original pneumatic dynamite gun, with the later development of which Lieutenant E. L. Zalinski, U. S. A., had some part, is here to take out patents on an improved pneumatic gun which he believes will revolutionize coast defenses.

"With 1,000 pounds pressure to the square inch," said he, "I can throw a 15-inch shell loaded with 500 pounds of high explosives a distance of six miles. A battery of such guns will make New York harbor impregnable. No man-of-war can be constructed which can withstand the shock of such an explosion.

"Remember that while the best 13-inch guns have a range of 10 to 12 miles, their effective range against heavy armor is less than six miles, and they can hardly be said to have any effective range at all against properly constructed coast defenses.

"The pneumatic guns now at Sandy Hook are only limited successes. Their range is too short. A fleet of ironclads could stand off out of their range and in time silence them.

"Zalinski has failed to solve the problem which I claim to have solved. He gets his pressure all right, but in delivering air into the breech of his gun on oblique lines he gets a 'cycloidal action.' In my improved gun that is avoided, the air pressure is direct upon the shell."

Mr. Hefford has submitted his plans to General Miles and to the committees on military affairs and fortifications. He is confident that the government will give his new gun an exhaustive trial.

AFTER ANOTHER BOAT.

An Offer Made For the Steamer Pilot For Filibustering Purposes.

BALTIMORE, May 21.—Captain John Hebb, president of the Maritime and Pilots' association, has been approached by a person interested in Cuban affairs with an offer for the association's steamer Pilot. It is suspected the Cuban revolutionary party would like to get her to fit out as a gunboat, for which purpose she is admirably suited. She is practically a small ocean steamer, roomy and speedy. By plating her with armor she could be easily converted into a formidable gunboat. The Pilots' association will sell her if enough money is offered for her.

The steamer City of Richmond, which is being overhauled here for alleged freight business among the Florida keys, is another vessel which is under suspicion. It will not surprise many if, some morning, it is found that she has slipped off during the night for the "Florida freight business."

Considerable anxiety is felt here in the Baltimore steamship Laurada, which sailed over a week ago from New York with two young Baltimore society men on board, bound for Cuba to aid the insurgents.

PROVED A DOUBLE MURDER.

Frank Gallaher's Second Victim Dies of His Wounds.

MUNCIE, Ind., May 21.—James Dugan died last night at 7 o'clock at the home of his sister, Mrs. Peter Menard, who resides on Ninth street. On the 26th of April, Frank Gallaher, James Dugan and Joseph Reid engaged in a fight near Morton's saloon, in Heekin park, in which Frank Gallaher with an open knife stabbed Joseph Reid through the right lung, causing his death a few days later, and James Dugan in the back of the head. The knife penetrated the skull and broke off, leaving the blade in his brain. It was removed by his physician, but he gradually grew weaker and died last night, after 26 days of suffering.

Dugan was aged 26 years, Reid, 21, and Gallaher, 21. The remains will be taken to Lockport, N. Y., where his mother, a brother and sister reside. Gallaher claims he acted in self-defense.

An Offer From Armour.

KANSAS CITY, May 21.—Through the intervention of Secretary McCrath of the American Federation of Labor, a definite proposition has been submitted by the Armour Packing company to their striking firemen. The company offers to reinstate the strikers at the old wages of 20 cents an hour, but to give them the option of working either 8 or 12 hours. It is intimated that in the event of the strikers returning to work their demand will be ultimately conceded. The firemen struck for an eight-hour day at 25 cents an hour.

PHILADELPHIA, May 21.—It has been definitely decided that the statue erected by the Fairmount Park association upon the banks of the Schuylkill river to the memory of the ex-president, General James A. Garfield, shall be unveiled on the evening of Decoration day. The detailed program has not been completed, but the ceremonies will be imposing. It has been decided that one of the features should be a great naval parade upon the river, and a meeting of all boat and yacht owners has been called to perfect the arrangements in this particular.

WE ARE GAINING IN JAPAN. Our Strongest Competitor, However, Is Japan Herself.

WASHINGTON, May 21.—Perhaps inspired by the frequent references in congress and the newspapers to the probability of Japanese competition in the future with our own manufacturers, the statistical bureau of the state department some time ago called upon United States Minister Dun at Tokio to report upon "the prospects of competition by American manufacturers for contracts in the Japanese empire."

The minister, in the course of his response, which will appear in the next number of the consular reports, says that while there has until recently been a large difference in favor of the British in cost of production, this is rapidly disappearing and there are now fair prospects of some articles of American manufacture superseding the English and other European makes. This fact is owing more to superior finish and excellence than in the price of American goods. American locomotives are growing in favor in spite of obstacles arising from the fact that British machines have been used and the shops are unfitted for the repair of the American engines.

Mr. Dun gives some advice to American makers as to the necessity of their studying the tastes of the Japanese as do the British, instead of trying to educate them to use our standards, and he adds that after all the greatest competitor, not only the American, but the European, has in Japan, is the growth of the home industries. With unlimited cheap skilled labor, an abundance of coal and magnificent water power, the indications are that in the near future the manufacturing industries in Japan will increase enormously.

When the new treaties come into operation there will, however, be nothing to hinder American enterprise from taking advantage of these great opportunities by starting manufactures in Japan. The Japanese government, the minister reports, is about to contract for the construction of four big battleships abroad and some of these will go to the United States if the diet approves.

BLOODY HAND EXENDED.

Will Armenia Grasp It in Her Dying Despair?

NEW YORK, May 21.—A special to The Herald from London says: It is learned on the highest authority that the Armenian question is about to enter a new phase. At this moment a movement is on foot here, in Paris and in Brussels in favor of a reconciliation of the Armenians with Turkey. There is every reason to believe that this movement has been started with the consent and even at the desire of the sultan himself. His majesty has been vividly impressed by the regrettable state of affairs in Anatolia created by the sad events of the past year.

It is necessary, however, that the well-intentioned section of Armenians should come forward honestly and endeavor to forget the past and boldly make an appeal to the personal sentiments of the sultan, in other words, grasp the hand which is already as good as tendered. This turn of affairs would be received with a deep sense of relief among English politicians of both parties.

Blackburn Will Oppose Carlisle.

LOUISVILLE, May 21.—A special to The Times from Washington says: Senator Blackburn yesterday resigned as a member of the board of visitors to the naval academy, to which he was appointed by the president some time ago. The reason for Senator Blackburn's resignation is that the date of the board's visit falls so near the date of the Kentucky state Democratic convention that it would prevent him from attending it. Senator Blackburn announced yesterday that he would visit the state convention and oppose instructions for Secretary Carlisle for president.

Garfield on the Schuylkill.

PHILADELPHIA, May 21.—It has been definitely decided that the statue erected by the Fairmount Park association upon the banks of the Schuylkill river to the memory of the ex-president, General James A. Garfield, shall be unveiled on the evening of Decoration day. The detailed program has not been completed, but the ceremonies will be imposing. It has been decided that one of the features should be a great naval parade upon the river, and a meeting of all boat and yacht owners has been called to perfect the arrangements in this particular.

Still Carrying on the Fight.

MILWAUKEE, May 21.—The street railway strikers are sullenly continuing their warfare and boycott against the railway company. The failure of the negotiations of the citizens' committee has had no apparent effect, except perhaps to increase the bitterness in the minds of the more excitable. Yesterday a motorman named Shepard was struck on the head by a stone and very seriously injured. He was operating a car when the missile was thrown.

LONDON, May 21.—Violent gales have prevailed along all the coasts and the shipping at Hull has suffered considerably. A large vessel has been driven ashore near Port Patrick, Scotland. It is feared there has been great loss of life.

Archduke Charles Louis Dead.

VIENNA, May 21.—The shock occasioned by the death of his father, the Archduke Charles Louis, has had a bad effect upon the Archduke Francis Ferdinand, and he will probably be too weak to attend the funeral of the first named.

TO STOP IMMIGRATION

Congress at Last Acts on an Important Measure.

BARTHOLODT-M'CALL BILL PASSED

Aliens Must Be Able to Read and Write English or Some Other Language—Other Amendments to the Present Law—The Fortification Bill Passed in the Senate.

WASHINGTON, May 21.—After two days' debate the house yesterday by the overwhelming vote of 195 to 26 passed the Bartholdt-McCall immigration bill as modified by the Corliss amendment. The stone consular inspection bill which was offered as a substitute was defeated, 175 to 131. The bill as passed adds to the classes of aliens excluded from admission to the United States all male persons between the ages of 16 and 60 years of age (except parents of persons living in this country) who can not both read and write English or some other language.

The Corliss amendment added to the bill excludes aliens who come across the borders year after year to perform labor in the United States with no intention of settling therein. It declares all labor contracts with aliens void and makes parties thereto within the jurisdiction of the United States punishable by a fine of \$1,000 or imprisonment not exceeding one year; makes it a misdemeanor for naturalized citizens who have returned to a foreign country, make the same his home to again perform labor in the United States; makes it a misdemeanor for any alien to cross the border for labor in the United States except at a port of entry and imposes a head tax of 50 cents on each immigrant. Those who participated in the debate yesterday were Messrs. Wilson (Dem., S. C.), McCall (Rep., Mass.), Mahany (Rep., N. Y.) and Danford (Rep., O.).

KENTUCKY free silverites will not help their cause by bringing such men as Gov. Altgeld into the State to make speeches for them.

CONGRESSMAN GROSSENVOR, who is McKinley's manager at Washington, is very indignant that people should inquire as to McKinley's financial position, and says "it is none of their damned business." According to Grossevorn, McKinley is to be elected President of only his particular circle of friends. But the people intend making it their business, as Grossevorn and McKinley will shortly find out.

WEEKLY CROP REPORT.

The Outlook in Kentucky as Now Viewed by the U. S. Weather Bureau.

[For the week ending Monday, May 18.]

The weather conditions of the past week were upon the whole more favorable to crops generally than those of the preceding month. While the rain was mainly in the form of local showers, yet so heavy and frequent were they in the western sections of the State, that the drought may be said to be broken in that division. In other parts of the State the rainfall was much less, and while in some localities there was a sufficient amount to allay in a measure the effects of the drought, more is badly needed, especially in the bluegrass counties and eastward to the West Virginia line. There are strong indications at the date of this report that good rains will fall in these sections before Wednesday night. The temperature, while ranging from five to seven degrees above the average daily during the week, did not attain the marked extremes which characterized several preceding weeks. The amount of sunshine received varied considerably in different parts of the State, the western section receiving slightly less than the normal amount, and in the central and eastern portions considerable excess prevailed. Generally speaking there is less complaint of destructive worms and insects than for several weeks past.

Western Kentucky.—Like those of several preceding weeks, reports from this section indicate a better state of crop conditions than that which obtains in other parts of Kentucky. Nearly all counties report sufficient rain, and in the extreme western ones heavy drenching showers occurred, several correspondents reporting amounts of precipitation in excess of two inches. In several of the more easterly counties complaints of lack of rain are still being made. A severe local storm in Marshall County Sunday damaged crops to some extent. The reports concerning wheat are somewhat conflicting, but as a rule they do not appear to be quite so favorable as those of last week, much complaint being made that it is heading low. The correspondent in Union County states that it is holding its own in that section, and that the prospect for a crop is good. It has suffered some damage from high winds and from the ravages of the cinch bug. Corn is almost unanimously reported to be in fine condition. The greater portion is above ground and much of it has been worked. Some few fields in the lowlands yet remain unplanted. Clover and timothy have suffered from the ravages of the army worms, and the former does not look well as a rule. Tobacco setting has made very rapid progress during the week, and in many counties fully one-half of the crop was transplanted during the week. Indications point to a shortage of apples, but peaches and the smaller fruits are abundant.

Central Kentucky.—The drought which has prevailed in this section of the State for some weeks past was relieved in a measure by the light local showers which fell during the week. The rain was insufficient in amount, however, to do more than partially revive crops, and in many cases came too late to be beneficial. Wheat is heading very low, and farmers are much discouraged at the prospect for a crop. Good rain would improve it, but in many localities it has suffered permanent injury from the protracted drought. Some tobacco has been set, but the season has not been favorable for any great progress with the work. There are complaints of scarcity of plants from Kenton, Owen, Scott and adjoining counties. Corn has come up well, and the stand is generally reported to be good. This crop has suffered less from the drought than have any of the others. The rain improved clover and timothy somewhat, but both are still short and need more moisture badly. Oats have been seriously injured in most localities, but not so much that good rains will not serve to revive them. Pastures have improved, and bluegrass is reported to be growing nicely again. Hemp looks badly, some of the seed failing to germinate, giving the fields an irregular appearance. Apples are reported to be scarce, but the prospect for other fruit is good. Gardens are doing moderately well. But few complaints are made of the presence of cutworms.

Eastern Kentucky.—The light showers of the week have revived vegetation to some extent but more rain is badly needed. In many places the soil is so dry and hard that it can not be worked. Corn, as a rule, looks well, but in a number of counties is commencing to yellow from lack of rain. But little tobacco has been set and there are complaints of scarcity of plants from Lewis and several adjoining counties. Wheat is in a generally poor condition and some correspondents state that it will be too low to cut. Rye and oats are short and need rain very badly. Pastures and meadows are poor and there is a scarcity of grass for stock reported from many counties.

At Parks Ferry, near Parks Hill, Tuesday afternoon, Mason Howell, son of John D. Howell, of the Carlisle Deposit Bank, was accidentally killed. He was out fishing and hunting and a boy with him handed him a gun with the muzzle toward him. Howell's foot slipped and the gun struck the boat and was discharged.

On May 26th and 27th the C. and O. will sell round trip tickets to Cincinnati at one fare, \$1.75. Tickets good going and returning on any train. Return limit May 31st. Eastern Kentucky.—The light showers of the week have revived vegetation to some extent but more rain is badly needed. In many places the soil is so dry and hard that it can not be worked. But little tobacco has been set and there are complaints of scarcity of plants from Lewis and several adjoining counties. The present outlook for the hay crop is very discouraging. Early garden vegetables are not in good condition, but rain would bring them forward rapidly. Lyric Sold to J. H. Shultz, Jr., For \$1,600—Other Sales.

[New York Tribune.]

A highly successful sale of registered and half-bred hackney carriage horses took place yesterday at the American Horse Exchange, under the direction of W. D. Grand. Consignments from A. J. Cassett's Chesterbrook farm and from Henry Fairfax, the well-known hackney breeder of Leesburg, Va., made up the bulk of offerings. Mr. Cassett's fourteen registered animals fetched \$4,845, an average of \$346 each, while the nineteen half-breds sold by Mr. Fairfax brought \$6,905, an average of \$310.

In the Chesterbrook collection was the roan filly, Lyric, by Matchless of Lonesboro, a winner of many important prizes at the National Horse Show and other leading exhibitions. Lyric has been called the best hackney filly of her age ever raised in this country, and she has twice won the junior champion prize in the show ring at Madison Square Garden. So much was thought of her in 1894 that Mr. Cassett contemplated sending the filly to England to compete with the pick of the hackneys there. Several of the fanciers who were present at the sale yesterday wanted Lyric, but John H. Shultz, Jr., son of the well-known trotting-horse breeder and buyer, outbid everybody else and secured the great filly for \$1,600. It is said that Mr. Shultz will show Lyric in the open-harness classes for high-steppers at the leading horse shows this year.

A half-sister to Lyric was sold to E. Lockwood for \$300. Max Caspari bought Courier and Flirtation, a pair of hand-some browns in Mr. Cassett's collection, for export to Germany. J. Blackburn, of Philadelphia, paid \$600 for Sylph, a chestnut filly four years old, by Matchless of Lonesboro, that has won a number of prizes in the show ring. The imported hackney mare, Queen of the North, a beautiful brown, ten years old, by Dane-gelt, was struck off to John D. Crimmins for \$335.

Enile Pfizer, A. H. Dinger, C. O. D. Iselin, George A. Ballantine, Marion Story, G. S. Gagnon, H. L. Higginson, of Boston, G. M. Hutton, Newport, and G. I. Park were among the horsemen who secured some of the choice ones in Mr. Fairfax's collection. Mr. Story bought a prospective prize winner in Con-Con, a silver roan filly with fawn white legs and a star and snip, by Matchless of Lonesboro, paying \$525 for the four-year-old. Toga's Light, a bay gelding, by Northern Light out of Tioga, the dam of the noted high-stepper, Hiatoga, was sold to G. S. Gagnon for \$325. H. L. Higginson bought Lynchburg by Northern Light, for \$300, and Fuldfmont, a combination harness horse and hunter, for \$335. G. M. Hutton secured about the best pair of the sale in Fairfax and Roscoe, a bay and chestnut of splendid form and action, by Matchless of Lonesboro, paying \$525 for the team.

For Friday's cash sale, D. Hunt & Son advertise wash silks at 15 cents, and corded dimities at 6 cents. They have many other big bargains.

Two Lives Saved.

LAST NIGHT'S ENTERTAINMENT.

An Artistic Success—The Audience Delighted—Excellent Rendition of Farce Comedies.

Artistically, the entertainment at the opera house last night was a success in every sense of the word.

Rarely has the stage ever been fitted up more beautifully. The rich draperies, elegant furniture and lovely flowers, all deftly arranged, presented a scene that delighted all who had the pleasure of viewing it.

As for the performance it was not an exception to the rule. Entertainments by local talent have always been a success, and the plays last night really surpassed anything given here for some time. Two farce comedies were rendered, the cast being as announced in yesterday's issue. "The Bicyclers" was a foretaste of the treat given in "A Proposal Under Difficulties."

The many amusing situations on the two plays, all presented with splendid success, convulsed the audience with laughter. It was a highly meritorious performance, and the audience are indebted to Mr. Harry C. Curran, Miss Martha Stevenson, Miss Jessie Peed, Mr. George T. Hunter, Mr. Harry Holmes, Mr. Robert L. Hoeflich, Mr. Lee Cox and the Maysville Orchestra for an evening's pleasure and enjoyment.

Financially, the entertainment was not the success it should have been. Maysville people have crowded the opera house to see plays not half as meritorious, and it is to be regretted that they do not manifest a higher appreciation of local talent.

Perhaps they will do better next time. Let us hope they will.

The music by the new Maysville Orchestra was excellent. Their selections are of a high standard, and it is a pleasure to listen to them.

THE MAYSVILLE WATER COMPANY.

List of the Officers and Executive Committee Elected For ensuing Year.

The reorganization of the Maysville Water Company was completed yesterday.

At a meeting of the Board of Directors, the following officers were elected for the ensuing year:

President—Chas. D. Pearce.
Secretary—A. R. Cooper.
Treasurer—J. D. Dye.

Executive Committee—Chas. D. Pearce, H. D. Watson, C. B. Pearce, Jr.

Mr. Dye will have his office in the central part of the city and will give prompt attention to all requests of the patrons of the company.

Horses Wanted.

Mr. Joe Kindig, of York, Pa., will be at Mose Daulton & Bro.'s stable, Maysville, Ky., on Tuesday, May 26th, 1896, and will pay the highest market prices for good, sound horses or mares from four to six years old, well broken and in good flesh. Bring in good ones and get the money for them. Don't forget the date, Tuesday, May 26th.

Going on Wheels.

O. R. Bright, Alvin Kendall, W. G. Dearing, Wm. Samuels, of Poplar Plains, and John Drennan, of Flemingsburg, will compose a party of wheelmen to visit Chicago and attend the Democratic National Convention. They will start on June 29, and expect to make the trip in four days. The distance is 425 miles.

Improvements at Ruggles.

Mr. I. M. Lane was out at Ruggles camp grounds yesterday, giving the measurements for some improvements. Four or five new cottages are to be erected and an addition 20x68 feet in size is to be made to the tabernacle. Work is to be commenced at once. The timber is all on the ground.

"BAT" WELCH, a well-known drummer from Lexington, died this week.

The things that people see are inside of them and not outside. No two people see the same thing exactly alike. One woman may look out at a beautiful landscape and see all the beauty and restfulness and grandness that there is in it. Another will look out at the same scene and see nothing. The man who is perfectly well and vigorous enjoys life to the full. Dr. Pierce's Golden Medical Discovery makes people well. There isn't anything miraculous about it—it is the most natural thing in the world. It simply puts the digestive organs, the stomach, the liver, the bowels, in perfect order and thereby makes the blood pure and rich. All diseases live and thrive on impure blood. Keep a stream of pure, rich, red blood flowing into a diseased spot, and the disease will not stay. A man lives on rich, pure blood, and disease dies out. Dr. Pierce's Golden Medical Discovery makes pure, rich blood. Send 21 cents in one-cent stamps to World's Dispensary Medical Association, Buffalo, N. THEY SAY cremation is a burning question, but that needn't trouble any one. It's an important question with some people where to buy jewelry. If you want the best, go to Ballenger's. The best is the kind to buy.

THE announcement was made some days ago that the Pennsylvania Railroad would hereafter carry bicycles free, and this action was proclaimed as an innovation. Charlie Ryan, of the C. and O., takes exception to this, claiming that to his road is due the credit for first carrying bicycles free. From the time bicycles came into general use the C. and O. evinced a general friendship for the wheelmen, and they have been favored with free transportation for their wheels over that road from the start. Others who adopt that plan now simply follow in the footsteps of the C. and O.

THE case of the Commonwealth against John D. Young, Jr., for the killing of Pliny Fassett, in Owingsville, last June, is on trial at that place. Judge B. F. Day, of Mt. Sterling, was elected special Judge. Owing to family and friendly relations toward the defendant, Commonwealth's Attorney C. W. Nesbitt declined to prosecute. His place was filled by the appointment of Mr. Stanley, of Flemingsburg, but he proving ineligible, County Attorney C. G. McAlister was appointed. Besides the State's attorney the prosecution is represented by H. B. Kinsolving, of Mt. Sterling, and others.

The defense has engaged a host of legal talent, among them being Gudell & Son, Hon. J. J. Nesbitt and Judge C. W. Goodpaster.

It May Do As Much For You.

Mr. Fred Miller, of Irving, Ill., writes that he had a severe kidney trouble for many years, with severe pains in his back and also that his bladder was affected. He tried many so called kidney cures but without any good result. About a year ago he began use of Electric Bitters and found relief at once. Electric Bitters is especially adapted to cure of all kidney and liver troubles and often gives almost instant relief. One trial will prove our statement. Price only 50c. At J. James Wood's drug store.

KENTUCKY G. A. R.

The State Encampment Largely Attended—The New Officers. Next Meet at Lexington.

The nineteenth annual State encampment of the G. A. R., S. of V. and Ladies' Relief Corps held at Somerset this week drew an attendance the largest in the history of the Kentucky G. A. R.

Captain Wheedon, of Louisville, was elected Commander on the first ballot. General E. H. Hobson was indorsed for Commander-in-Chief. Delegates to the National convention were chosen as follows: M. H. Buckley, Daniel Tracey, J. D. Forrester, John Barr, J. H. Lewis and R. F. Goode.

The meeting next year will be held at Lexington.

The Women's Relief Corps elected Mrs. Belle R. Ludwig, of Covington, President; Mrs. Easton, Louisville, Senior Vice President; Pauline Shano, Louisville, Vice President; Lottie Vincent, Covington, Ky., Treasurer; Hannah Donaldson, Ludlow, Secretary; Mrs. Ingalls, Dayton, Chaplain; delegate to the National convention, Mrs. Ross Harper, of Louisville.

The Sons of Veterans elected B. F. McClellan, Commander, T. Z. Morrow, delegate-at-large, and will also meet in Lexington next year.

Captain Wheedon is a prominent railroad man at Louisville, and is a Mason of high degree.

DID SPANISH GOLD DO IT?

An Alleged Cuban Filibustering Expedition Meets With Disaster.

WILMINGTON, N. C., May 21.—The British steamship *Horsa*, the vessel which has become notorious as an alleged Cuban filibuster, put in at Southport, at the mouth of the Cape Fear river, at 11 o'clock yesterday. She had been on fire and was pretty thoroughly gutted, being not much more than a shell. She sailed from Port Morant, Jamaica, with a cargo of fruit May 18. Fire broke out in the forecastle on the 16th and was not under control until the morning of the 18th. She was then 300 miles from one of the Bahama islands.

The steamer was commanded by Captain C. E. Cook of Calais, Me., who was found to be missing between 3 and 4 o'clock on the morning of the 18th. It is supposed that he fell overboard and was drowned. He was 50 years old, a married man and leaves a family. The crew consisted of 20 men, seven of whom are Spaniards, Charles E. McIntosh, first mate of the *Horsa*, brought her into Southport. The origin of the fire is involved in much mystery and some think that Spanish gold is at the bottom of it. The disappearance of the captain also excites comment. The crew is safe.

QUEEN VICTORIA'S BIRTHDAY.

It has been celebrated in Advance throughout England.

LONDON, May 21.—The official celebration of the queen's 77th birthday, which occurs on Sunday, took place yesterday throughout the country and the empire in general. On the parade ground of the horse guards there was the usual attractive ceremony of trooping the colors and it was witnessed by a large crowd of distinguished people, including the Prince and Princess of Wales, the Duke and Duchess of York, Prince and Princess Christian of Schleswig-Holstein, the Duke of Cambridge, Prince Charles of Denmark and the commander-in-chief—Lord Wolseley.

Her majesty was born May 24, 1819. The attractiveness of the trooping of the colors here, however, was marred by some lively rain showers. There were the usual queen's birthday observances at all the garrison towns and naval stations.

A Sewing Machine Suit.

COLUMBUS, O., May 21.—An important test case was filed in the supreme court yesterday. The Singer Sewing Machine company sold to Belle Caldwell of Jefferson county a sewing machine costing \$55. She paid \$35, but failed to make one payment and the company got her to give a chattel mortgage on the machine for the unpaid balance. Then it was foreclosed. Mrs. Caldwell sued to recover her \$35, but judgment was given against her, but the circuit court reversed the judgment and the Singer company appeals.

SAN FRANCISCO, May 21.—Henry Bigelow, at one time one of the most brilliant and best known newspaper men of San Francisco, died yesterday of cancer at St. Joseph's hospital. Bigelow had been in poor health for a long time and of late did but little active newspaper work. One of his most notable achievements was securing an interview with the bandits, Evans and Sontag, at the time they were in the mountains and holding the officers of the law at bay.

GUILTY OF MURDER.

WASHINGTON, May 21.—Irving L. Ford, the negro whose brutal murder of young Elsie Kregel, a white girl of 16 years, near the Zoological park created a sensation in Washington and Maryland less than three weeks ago, was found guilty yesterday by the jury after being out seven minutes. Ford made a confession and pleaded guilty, but the court refused to accept the plea and ordered a trial. The main effort of the defense was to exclude Ford's confession.

BRIDGES WASHED AWAY.

OKLAHOMA CITY, O. T., May 21.—Eleven bridges were washed away, and 10 miles of track are under water between Shawnee and Holdenville on the Choctaw, Oklahoma and Gulf road, as a result of heavy rains, and no trains have run through for the past 12 hours. Farms are submerged on the North Canadian river for many miles and heavy damage has been done to stock and growing crops.

TRIPLE HANGING.

BRENTON, Tex., May 21.—John Rutherford, Brady Rutherford and Joe Goodson were hanged yesterday afternoon for the murder of Thomas Dwyer. The drop fell at 2:10. They were pronounced dead in 10-12 minutes.

THE TRIUMPH OF LOVE

HAPPY, FRUITFUL MARRIAGE.—very Man Who Would Know the Grand Truths, the Plain Facts, the New Discoveries of Medical Science as Applied to Married Life, Who Would Atone for Past Errors and Avoid Future Pitfalls, Should Secure the Wonderful Little Book Called "Complete Manhood, and How to Attain It."

Here at last is information from a high medical source that must work wonders with this generation of men."

The book fully describes a method by which to attain full vigor and manly power. A method by which to end all unnatural rains on the system.

CUPID AND PSYCHE

To cure nervousness, lack of self-control, dependency, &c.

To exchange a faded and worn nature for one of brightness, buoyancy and power.

To cure forever effects of excesses, overwork, wear, &c.

To give full strength, development and tone to every portion and organ of the body.

Age no barrier. Failure impossible. Two thousand references.

The book is purely medical and scientific, endless to curiosity seekers, invaluable to men only who need it.
